

DYNACLEAR FILM®
CBT type is RECYCLABLE

DYNACLEAR CBT (general purposes)

Our best selling and most widely used multi-purpose workhorse shrink film with good toughness and clarity. Dynaclear CBT seals on wide variety of sealing system configurations helping your packaging needs from manual to high speed applications. Multi-layer polyolefin with high strength and puncture resistance. Unlike most polyolefin shrink films, Dynaclear CBT has memory, which allows the film to rebound to its original shape.

DYNACLEAR RCD (cross linked)

High performance cross-linked polyolefin film with enhanced toughness. Designed to tolerate tunnels and sealing systems that have wide variations in control, Dynaclear RCD is compatible with all sealing systems and performs well under less-than-optimum seal equipment conditions

| TYPE | STANDARD PUT-UPS | | | AVAILABLE THICKNESSES UPON REQUEST |
|--------------|------------------|------------|------------|---------------------------------------|
| | 60 | 75 | 100 | |
| Single wound | 8,750 feet | 7,000 feet | 5,250 feet | 45 & 50 gauge |
| Center fold | 4,375 feet | 3,500 feet | 2,625 feet | |

A FAMILY OF FINE PRODUCTS

Pro Pack carries a broad range of packaging products that reflect the needs of both our industrial and retail customers. These include shrink film and stretch film, as well as carton sealing and shrink packaging equipment.

Additional products include one of the largest offerings of tape available: pressure-sensitive and water-activated carton sealing.
