Epson SureColor P5000

17" Professional Desktop Printer

P

SureColor P5000

Creativity Without Compromise.

Imagine a production-class printer that fits as seamlessly into your workflow as it does in your workspace — no matter what industry you're in. An advanced, high-performance tool capable of producing gallery-worthy, sellable photographic prints, delivering professional comps, or hitting elusive PANTONE® colors for contract proofing — all in a 17" desktop format.

Introducing the Epson® SureColor P5000 printer

Representing the culmination of Epson's transition from the revered Epson Stylus® Pro Series, the SureColor P5000 integrates our latest professional imaging technologies — including our unparalleled UltraChrome HDX® pigment ink set and game-changing PrecisionCore® TFP® printhead. With the SureColor P5000, we've added the finishing touch to our SureColor P-Series family — but the story's far from over.

We're just getting started.

© David R. Stoecklein

Commercial and Flexographic Proofing

Orange, Green and optional Violet inks for outstanding color gamut to support even the most demanding proofing applications.

Graphic Design Applications

Streamlined workflows for process color (CMYK), spot colors and RGB files create phenomenal designs and comps.

EPSON

Photographic and Fine Art Printing

Highly accurate PrecisionCore printhead provides sharpness and clarity for breathtaking color and black-and-white prints.

Refined Printing Technology

Designed to achieve the highest standards for quality and reliability, the SureColor P5000 combines unique hardware enhancements with our most advanced printing technology to date. The printer's refined design offers improved dust and static control, while our PrecisionCore TFP printhead features ink-repellent surface coating. Together, they offer dramatically reduced printhead nozzle maintenance for improved reliability that's matched by outstanding print quality.

Front Straight-Through Manual Feed

Supports soft-surface fine art papers, posterboard and aqueous-coated rigid materials up to 1.5 mm thick.

High-Capacity Cassette

Load up to 100 sheets of premium paper as large as 17" x 24" for high-volume runs.

Top-Loading Manual Feed

Perfect for individual prints using delicate fine art papers.

Roll Media Handling

Use roll media and the integrated high-speed rotary cutter to improve print costs.

Advanced Media Handling

For maximum versatility, there are four unique media inputs: a top-loading roll media path, front cassette for multiple sheets, single-sheet top-loading path, and front straight-through paper path.

Auto-Switching Media Support

Epson's only 17" printer available with auto-switching media sources, the SureColor P5000 offers on-demand printing from both the high-capacity front paper cassette and roll media feeder.

Supported by Advanced Workflows

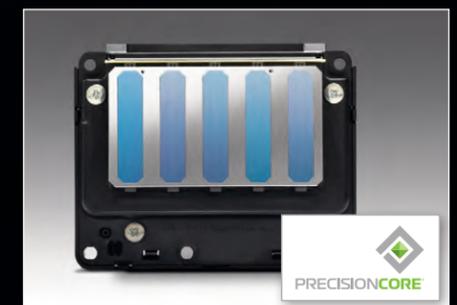

SureColor P-Series printers are supported by the majority of workflow vendors. Additionally, the SureColor P5000 Designer Edition printer includes EFI® Fiery® eXpress for Epson RIP software.

Optional Epson SpectroProofer® UVS

Automate media calibration and re-linearization using your preferred proofing software. Powered by an X-Rite® ILS30EP, it supports M0, M1 and M2 illuminant standards for the perfect proof.

PrecisionCore Printhead Technology

Assembled to handle the unique characteristics of Epson UltraChrome HDX Inks, this advanced printhead achieves exceptional ink efficiency and a higher level of printhead reliability.

Epson UltraChrome HDX Ink

Representing our latest generation of photographic ink technology, the 10-color UltraChrome HDX Ink set with 200 mL cartridges redefines the standard for photographic imaging excellence and print permanence. Utilizing newly developed core pigments — including Black inks 1.5 times denser than our previous generation — the level of photographic clarity, optical density and vibrancy sets a new benchmark for Epson. And, with our latest generation of color pigment technology, we've achieved a breakthrough in print permanence, resulting in prints of exceptional quality that will define your legacy.

Superior Color and Detail

Epson Precision Dot Screening optimizes ink mixing and sizing for precise drop placement.

Advanced Black & White Photo Mode

Available on the Standard and Designer Editions, this advanced driver mode offers complete control of your black-and-white printing.

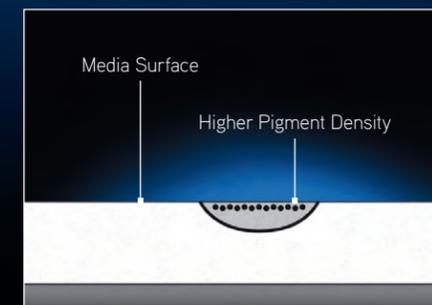

Expanded Gamut

This expanded-gamut ink set delivers accurate color reproduction — from digital photography to 4-color process colors (CMYK) and spot colors.

Improved Black Density

Higher density Matte and Photo Black pigments help to produce a wider contrast ratio, resulting in optically clearer and sharper images — for both color and black-and-white prints.

Print Permanence

Based upon independent print permanence testing by Wilhelm Imaging Research Inc., our latest pigment ink technology is rated to last up to twice as long as our previous generation!

Violet Ink

By adding Violet — expanding upon Orange and Green inks — we've achieved an industry-leading 99 percent coverage of the PANTONE FORMULA GUIDE solid-coated standard².

Epson UltraChrome HDX

Standard and Designer Edition Ink Set

Epson UltraChrome HDX

Commercial Edition Ink Set

Epson SureColor P5000 Printer Specifications

Printing Technology

Advanced PrecisionCore TFP 10-channel, drop-on-demand printhead with ink-repelling coating technology

Ink Type

UltraChrome HDX pigment ink; 11-ink, 10-color Standard and Designer Edition ink configuration: C, LC, VM, VLM, Y, LK, LLK, O, G and PK/MK

Commercial Edition ink configuration: C, LC, VM, VLM, Y, LK, V, O, G and PK/MK

Independently Tested Fade Resistance/ Print Longevity¹

Color Up to 200 years
Black-and-White Up to 400 years

Nozzle Configuration

Color and monochrome heads; 360 nozzles x 10

Droplet Technology

Smallest Droplet Size 3.5 picoliters
Variable Droplet Technology can produce up to three different sizes per line

Maximum Resolution

2880 x 1440 dpi

Auto-Switching Black Ink Technology²

Black Ink Conversion Times, Normal Mode
Matte to Photo Black Approx. 3:44
Photo to Matte Black Approx. 2:25
Black Ink Conversion Times, Quick Mode
Matte to Photo Black Approx. 2:00
Photo to Matte Black Approx. 0:58

Epson Intelligent Ink Cartridges⁴

In-box Cartridge Fill Volume 80 mL each color x 11 colors total
Retail Cartridge Fill Volume 200 mL each color x 11 colors total
Ink Cartridge Shelf Life 2 years from printed production date or 6 months after opened

Printer is designed for use with Epson cartridges only, not third-party cartridges or ink*.

Printer Interfaces

Hi-Speed USB 2.0 (1 port)
Ethernet 1000Base-T; 100Base-TX (1 port)

Weight and Dimensions (W x D x H)

Exit Tray Closed 34.0" x 30.2" x 15.9"
Weight 114.6 lb

Media Handling

Roll Paper 2" and 3" core media
17" wide up to 0.5 mm thick
Sheet Media Path Maximum size 17" x 22"
Minimum size 8" x 10"

BorderFree® Printing

On 2" and 3" Cores 10", 13", 16", 17"
On 2" Only with Spacer 8", 11", 16.5"

Printable Area and Accuracy

Maximum Paper Width 17"
Minimum Cut-sheet Size 8" x 10" less margins
Maximum Printable
Roll Length 529"
Line Accuracy +/- 0.2% of specified length
(+/- 0.26 mm min.)

Margins and Tolerances

Minimum Cut Length 5.0" plus top and bottom margin (5.24" minimum)
Top/Bottom Normal (varies by media)
Margins (mm) 13, 3, 20, 25, or 0 when using borderless cut)
Left and Right Margins 3 mm each side; 0.24" total, 0" at BorderFree sizes

Acoustic Noise Level

Less than 47 dB(A) according to ISO 7779

Environmental Characteristics

Temperature
Operating 50° to 95°F (10° to 35°C)
Storage -4° to 104°F (-20° to 40°C)
Relative Humidity
Operating 20 – 80% (no condensation)
Storage 5 – 85% (no condensation)

Electrical Requirements

Voltage AC 110 – 240 V
Frequency 50 – 60 Hz
Current 0.7 A

Power Consumption

Printing Approx. 52 W
Ready Approx. 20 W
Sleep Mode Approx. 5.0 W
Power Off Less than 0.5 W
ENERGY STAR® qualified

Operating Systems Supported⁵

Windows® 10, Windows 8.1, Windows 7 (32-bit, 64-bit)
macOS® 10.12.x – Mac® OS X® 10.7

Standards and Approvals

FCC part 15 subpart B class B (United States)
CAN ICES-3(B)/NMB-3(B) (Canada)
AS/NZS CISPR 32 class B (Australia)

Limited Warranty and Service

Standard 1-year, usually next-business-day on-site repair with toll-free phone support Monday through Friday. Subject to terms and conditions found at www.epson.com/support/p5000

* This product uses only genuine Epson-brand cartridges. Other brands of ink cartridges and ink supplies are not compatible and even if described as compatible, may not function properly.

1 Ink lightfastness rating based on accelerated testing of prints on specialty media, displayed indoors, under glass. Actual print stability will vary according to media, printed image, display conditions, light intensity, humidity and atmospheric conditions. Epson does not guarantee longevity of prints. For maximum print life, display all prints under glass or lamination or properly store them. Visit www.wilhelm-research.com for the latest information.

2 Percent coverage of PANTONE PLUS FORMULA GUIDE solid-coated palette based on Epson Proofing Paper White Semimatte printed with the Epson Driver at 2880 x 1440 dpi. PANTONE coverage may vary when printed under other conditions.

3 Ink used in conversion varies considerably based on temperature and other factors.

4 Cartridge yields vary considerably based on images printed, print settings, paper type, frequency of use and temperature. For print quality, a variable amount of ink remains in the cartridge after the "replace cartridge" indicator comes on. The printer ships with initialization cartridges and part of the ink from the first cartridges is used for priming the printer.
