FINE PRINTING INKS

# SELECT

## Why Select?

Because selection means choice, and your business runs on choices. Whether it's the processes you choose to increase profitability or the products you use to improve production efficiency and quality, choice matters. Simply put, better choices mean better...Period.

Van Son Select was created to give our customers the very best choice in process ink performance. With its exceptional dot retention, color vibrancy, and press stability, SELECT is the ideal choice for any size sheetfed press. Also a very low VOC product, Van Son Select is a decision to help reduce your carbon foot print and make the world better for everyone...Does it get more choice than that ?
