# Smooth Mount LAMINATORS

27"/40"/50" Pouch Board Laminators

Automatic Silicon Rollers

Rear Extension Legs

Digital Controls

Simply Superior Design
For improved productivity and ease of use

- **Rear Table Extension Legs improve results and productivity**
  - Boards exit unattended and safely cool flat (Patent applied for)
  - Attaches securely in seconds without tools
  - Stores under laminator to save space when not in use
- **Variable Temperature and Speed**
  - Use with all pouch boards, mounting as well as cold boards
  - Reference Guide on laminator for common applications
  - Speed from one to five feet per minute
  - Temperature from cold to 300 degrees
- **Spring controlled roller automatically adjusts to board thickness**
  - Works with boards up to ¼" thick
  - Roller is silicon coated for easier cleaning
- **Digital Controls and Sensor**
  - Touchless infrared sensor monitors roll surface temperature
  - Digital display for both set and actual temperature
- **Safety Features**
  - Clear Safety Shield lets you view your work being processed
  - Fuses and adjustments accessed on the surface of the laminator
- **Uses standard 110V AC power**

Smooth Mount and MountCor Return on Investment

The Market prices for Mounting and Laminating

Encapsulating (2 sided laminating)	$4/square foot
Mounting (white foam board)	$5/square foot
Mounting and Laminating (Foam Board/Gloss)	$7/square foot

Note: Black foam board and matte laminate have higher prices
Prices based on Northeast pricing
Prices are round and based on single item purchases
The average pricing mark-up is 4 times material cost

The Payback Calculation

1. **Assume you sell 1 24"x36" print a day** at $30 each.
   Total revenue $150/week with a cost of supplies & labor is $40
   Yielding a weekly profit of $110
2. If your equipment cost is $2,000 you will get your money back or
   Payback in 18 weeks ($2,000/$110) or less than 100 mounts
   pays for your system.
