

Applications

Conventional Inks/Coatings

- Business forms
- Coating

Features and Benefits

- ThermaSphere® Compressible Layer
- Proprietary NBR face Compound
- Consistent gauge control
- Ground, semi-polished surface
- Compressible
- Excellent Ink Transfer/Swell Resistance
- Quick Release
- Ultra Sharp Dot

Specifications

Color	Blue
Gauge/Ply	.0335", .0355", .0375", .041" /2Ply
Compressibility	Hard
Surface	Ground
Surface Roughness (Ra)	1.8µm
Hardness (Shore A)	87°
Micro Hardness (Surface)	62°
Adhesive Type	"B" Standard "S" High Strength

Blanket Guarantee:

The DYC/Kinyo manufacturing process guarantees no pinholes, no porosity and uniformity of thickness from blanket to blanket.

The blankets are guaranteed to be talc free, in perfect condition and ready to mount on your press when you receive them. If our blankets do not perform, it will cost you nothing.

Consistent, Superior Quality Guaranteed.
