

# Varn® Universal Pink

All-plate, Small-Press Fountain Solution

## Fountain Solution

New Universal Pink, an all-plate, small-press fountain solution, has proven itself on black, polyester and metal plates. It runs exceptionally well in conventional and alcohol systems and is especially approved for use in Kompac Automatic Dampening Systems.

### Advantages of Varn® Universal Pink

- Formulated for small presses equipped with conventional, integrated or Kompac Automatic Dampening Systems
- Gives excellent results on metal, camera or photo-direct plates
- Outstanding performance with all rubber based and oil based inks
- Alcohol and glycerin-free

Not Regulated

## Directions

### SUGGESTED MIXING RATIOS:

- Kompac or conventional dampening systems. 15 to 30 parts water to 1 part concentrate. (1 to 2 ounces per quart).
- Integrated dampening systems. 7 to 10 parts water to 1 part concentrate. (3 to 4 ounces per quart). Add alcohol as needed.

For optimum results, we recommend that regular press maintenance be done on a weekly or bi-monthly schedule to eliminate the build-up of calcium carbonate and ink/gum glaze on dampener rollers, ink rollers and blankets. This build-up can cause stripping, inconsistent color and scumming/toning.

## Packaging

U.S.A.  
4 x 1 Gallons

CANADA  
4 x 5 Liters

## More products. Streamlined access. Greater results.

Flint Group's Print Media division offers a uniquely powerful combination of products, services and expertise, giving you access to the industry's broadest range of pressroom products.

## **Inks & Coatings. Pressroom Chemicals. Blankets. Sleeves. Consumables.**

Rely on us for consistency, reliability and customer focus. Our aim is to make it easier for you to achieve your business goals. With Flint Group products in your pressroom, you can run your business with confidence and peace of mind.
