

CAD-COLOR® Soft Foam

Specialty Printable HTV with Premium Finish

We've expanded our CAD-COLOR® product line to include a new printable HTV unlike anything on the market. Introducing CAD-COLOR® Soft Foam – a textured, dimensional material compatible with eco-solvent print/cut systems. This unique material allows you to print full color designs with a soft, ultra-matte finish for a premium look and feel. Soft Foam is perfect for creating trendy designs that easily apply to everyday fashion wear, spirit wear, athletics, and more!

GREAT FOR:

- Soft full color designs
- Large or standard placements
- Cotton & polyester apparel

SOFT COLOR, BIG IMPACT!

CAD-COLOR® Soft Foam has a velvet-like texture for a smooth full color finish. At nearly 600 microns thick, the material has a raised effect while remaining both pliable and durable. Add dimension to your full color graphics without compromising feel with this incredibly soft printable heat transfer vinyl.

FASHIONABLE DECORATION

Great on cotton or polyester fabrics, CAD-COLOR® Soft Foam is PVC free and CPSIA Certified. This material is an excellent choice for classic, specialty, and creative full color designs. Soft Foam is an outstanding addition to your apparel decoration with an eye-catching effect and quality feel your customers will love.
