

# Hotronix® Power Platen™

## Eliminate Scorching – For Good

The Power Platen helps you stop scorching delicate fabrics with heated lower platens in a variety of sizes for any job.

### GREAT FOR:

- Heat sensitive fabrics
- Sublimated garments
- 3D Emblems, embroidered appliqué

## THE POWER IS IN THE PLATENS

Do more with your heat press with 4 sizes of interchangeable platens to fit whatever you're decorating. Built in heat press pillows give you a solid press when dealing with zippers, buttons, or seams - no extra accessories needed.

## STOP SCORCHING

With heat from the lower platen, tackle delicate polyester and blends with. Heat applied directly beneath heat transfer adhesive means a quicker bond between the adhesive and fabric, further reducing the risk of scorching and speeding up production.

## EMBLEMS & APPLIQUÉ

Keeping heat off the face of embroidery, emblems, and appliqué keeps them from overheating and helps to retain their full dimension. Heat from the lower platen also helps make application of thick emblems and patches fool-proof with a long lasting, durable bond.
